Final Report re: Water Quality Monitoring in the Wood-Pawcatuck Watershed

As of March 28, 2014 WPWA staff has worked with URI Watershed Watch to identify the sites that we would like to monitor for the 2014 season. We have also helped to solicit volunteers for these sites.

Water quality monitoring started the week of May 17, 2014 at eleven (11) ponds and seventeen (17) river sites in the Wood-Pawcatuck Watershed. The sites are listed below. Twenty-one (21) sites are monitored by WPWA volunteers. Seven (7) of the streams are monitored by WPWA staff.

2014 Water Quality Monitoring Sites in the Wood-Pawcatuck Watershed

Ponds:

Alton Pond
Barber Pond
Boone Lake
Glen Rock Res
Meadowbrook Pond
Locustville Pond
Pasquisett Pond
Watchaug Pond
Wincheck Pond
Worden Pond
Yawgoo Pond

Brushy@Woody Hill
Brushy @ Saw Mill Rd
Chipuxet @ Rte 138
Glen Rock Bk
Locke Brook
Queen @ Mail Rd
Pawcatuck River at Bradford
Pawcatuck @ Biscuit City Rd
Pawcatuck below Kenyon Industries
Pawcatuck @ Rte 91
Pawcatuck @ Burdickville Rd
Sherman Brook
Shickasheen @ Rte 138
Usquepaugh @ Rte 2
White Brook inlet

Rivers and Streams:

Ashaway R. @ Wellstown Rd.
Tomaquag Brk @ Chase Hill

Each site costs approximately \$85 per month to monitor through the University of Rhode Island Cooperative Extension Watershed Watch Program. The fee covers volunteer training, monitoring equipment, laboratory expenses, and data management. The invoice for one month of water quality monitoring for twenty-eight sites is \$2,380. The RI Rivers Council grant of

\$1,900 was used to cover the monitoring bill for May, 2014. WPWA used eighteen (18) volunteers for this project.
